Possibility Land takes participants a step further. In the context of a week-long training limited to 10 participants, O'Hanlon moves to a new level of experience that cannot be duplicated in his large workshops. The author shares riveting stories, metaphors, interchanges with participants, transcripts of therapy sessions during the week, and many more teaching points that allow this book to read like a novel. The book explores many current issues facing therapists in today's climate such as how to make therapy briefer and how to work with abuse victims. It offers the reader a chance to experience, along with the participants, an in depth training where subjects such as hypnosis, brief, Ericksonian, solution-oriented, and narrative therapies, and the use of language, are explored. Welcome to Possibility-Land.

Skills and techniques from a master therapist on how to help clients connect to their lives spiritually. Although a growing number of Americans are turning to spirituality to help explain and supplement their lives, and a vast majority identify as religious, psychotherapy has long been reluctant to work alongside clients' sense of "something bigger." But what kind of resources might a spiritual sensibility offer from a mental health standpoint? How can therapists helpfully and respectfully integrate spiritual feelings into their work with clients? Bestselling author Bill O'Hanlon tackles these questions and others in this pioneering foray into the uses and pitfalls of spiritualities—both secular and religious—in a therapeutic setting. Here, spirituality is defined by its three integral components: a feeling of connection to something beyond oneself, a capacity for compassion or "feeling with," and a sense of

Responsibility to make a contribution to others and to the world. Each of these “3 Cs” comes with illustrative anecdotes, case vignettes, and specific techniques for unlocking clients’ own spiritual resources. Solution-Oriented Spirituality is O’Hanlon at his best: erudite, conversational, and committed to mining any resource that might help clients get “unstuck” from constrictive behavioral and thought patterns.
