BATES-JENSEN
WOUND STATUS
TOOL

The Bates-Jensen
Wound Assessment
Tool (BWAT),
formerly the
Pressure Sore
Status Tool
(PSST), is a
15-item
objective
measure designed

Online Library Bates Jensen

to assess wound status and track healing. It serves to assess the progression of [SC1] wound healing.

Wound Assessment
Tool. Similar to
the PUSH tool,
the BWAT method
uses the scoring
of several
factors to
determine the
state of a
wound. According
to the BWAT
instructions for
use, this tool
measures 13

Online Library Bates Jensen

Wound components
which are
independently
ranked from one
to five. A sub-
score of one on
any item
indicates that
the specific
factor being
measured is non-
harmful while a
sub-score of
five indicates

Online Library

Bates Jensen

Wound Assessment Tool Ucla
that the factor
is extremely
necrotic.
