Intelligence Testing and Minority Students offers the reader a fresh opportunity to re-learn and re-consider the implications of intelligence testing. Richard R. Valencia and Lisa A. Suzuki discuss the strengths and limitations of IQ testing relative to the factors which may contribute to biased results. They review the history of the adaptation and adoption of intelligence testing; evaluate the heredity-environment debate; discuss the specific performance factors which apply to IQ testing of those in minority ethnic groups. This practical book offers the practitioner a good sense of what can be done to make testing and education serve the needs of all students fairly and validly, whatever their background.

Language policy is a topic of growing importance around the world, as issues such as the recognition of linguistic diversity, the establishment of official languages, the status of languages in educational systems, the status of heritage and minority languages, and speakers' legal rights have come increasingly to the forefront. One fifth of the American population do not speak English as their first language. While race, gender and religious discrimination are recognized as illegal, the US does not currently accord the same protections regarding language; discrimination on the basis of language is accepted, and even promoted, in the name of unity and efficiency. Setting language within the context of America's history, this book explores the diverse range of linguistic inequalities, covering voting, criminal and civil justice, education, government and public services, and the workplace, and considers how linguistic differences challenge our fundamental ideals of democracy, justice and fairness.

This book is a great resource for students who are planning to appear for the CogAT test for getting into Grade 2 (i.e. current 1st grade students). This book also includes useful tips for preparing for the CogAT test. This books has one full length test similar in format to the actual test that will be administered in the CogAT Test.
