~~Competitive Intelligence Definition - Investopedia~~

# Get Free Competitive Intelligence

Competitive intelligence is the systematic collection and analysis of information from multiple sources, and a coordinated CI program. It is the action of defining, gathering, analyzing, and distributing intelligence about products, customers, competitors, and any aspect of the environment needed to support executives and managers in strategic decision making for an organization. CI means understanding and learning what is happening in the world outside the business to increase one's competitive

## ~~Competitive intelligence—Wikipedia~~

One of the most effective market research strategies generally referred to as competitive intelligence (CI), is based on the gathering, analysis, and application of business information about a company's rivals. Arik R. Johnson, Managing Director of Aurora WDC, provides this definition of competitive intelligence:

## ~~How to Conduct Competitive Intelligence~~

Competitive intelligence (CI) is the gathering of publicly-available information about an enterprise's competitors and the use of that information to gain a business advantage. The goals of competitive intelligence include discerning potential business risks and opportunities and enabling faster reaction to competitors' actions and events.

# Get Free Competitive Intelligence

Competitive intelligence, otherwise known as competitive research, is the process of collecting information about businesses, marketplaces, and key trends in an industry.

## ~~What is Competitive Intelligence? — Luth Research~~

Competitive intelligence or otherwise called as early signal analysis encompasses information relating to competitor's plans, products, next moves, and actions. Such intelligence influences the organization's own plans and strategies. Add to that, it helps in prior ascertainment of opportunities and threats in the marketplace, before they are apparent.

## ~~What is Competitive Intelligence? definition, objectives ...~~

Competitive intelligence is a product of market research and competitor research that helps you see gaps (opportunities) and overlap (vulnerabilities) in your market. "Timely, accurate competitive intelligence can mean the difference between closing a deal versus wishing you did," says Tim Harsch, CEO & Co-Founder, Owler.
