"This pioneering study of United States direct investment in Japan will interest academic specialists, business managers, and government policymakers in America, Japan, and elsewhere. Drawing on rich historical materials from both sides of the Pacific, including corporate records and government documents never before made public, Mason examines the development of both Japanese policy towards foreign investment and the strategic responses of American corporations. This history is related in part through original case studies of Coca-Cola, Dow Chemical, Ford, General Motors, International Business Machines, Motorola, Otis Elevator, Texas Instruments, Western Electric, and Victor Talking Machine. The book seeks to explain why s little foreign direct investment has entered modern Japan. In contrast to the widely held view that emphasizes an alleged lack of effort on the part of foreign corporations, this study finds that Japanese restrictions merit greater attention. Many analysts of the modern Japanese political economy identify the Japanese government as the key actor in initiating such restrictions. Mason finds that the influence of Japanese business has often proved more potent than these analysts suggest. This book offers fresh insights into both the operation of the modern Japanese political economy and of its relations with the world economy."

from the bestselling author of The Circle and the Crosscomes Caiseal Mor's best novel yetRanging from the lush beauty of twelfth-century Ireland to the dangorous secrets of a desert fortress, this magnificent new novel set in the time of the Crusades will attract even more readers to this very special author.Caiseal's previous novels have brilliantly blended elements of history, adventure, legend and magic. In The Tilecutter's Penny all these elements are again strikingly in evidence, in a remarkable story that combines the ancient legends of the Holy Grail with a story of courage, love and intrigue. It is the time when the Normans ruled Ireland. In the Holy Land far to the east, the city of Jerusalem is fought over by Crusaders and Saracens. Among the Crusaders are the holy orders of the mysterious Templar Knights and their rivals, the Knights of St John the Hospitaller. These knights not only wish to keep Jerusalem from the hands of the infidel, they also wish to unlock the secrets of the fabled treasures within Jerusalem's Holy Sepulchre -- the most revered site in Christendom.In a small Irish village, the chieftain lies dying. Mathuin is an old man now, but he once travelled to the Holy Land with his Norman lord, William Fitz William, and fought for Jerusalem. Now his heart is broken: Jerusalem has fallen.In the Holy Land Mathuin and William had become acquainted with the Templar Knights. William had been admitted as a postulant to the order, and when his old friend Mathuin dies, he decides it is time to devote his life to prayer and contemplation. The running of his estate he leaves to his son Robert, a pious young man. His other son, Rufus, is a disappointment to him: a young man concerned with little but his own ambition and pleasures -- and little thought for those who get in his way. It is not long after William's retirement to the seclusion of the abbey that Robert decides he, too, must leave his home and fight in the Holy Land as his father did before him. And he convinces Mathuin's son Donal to accompany him.A tilecutter from the East has been employed by William to create beautiful mosaics depicting the Holy Land in his chapel. Although Donal is reluctant to leave his home and his wife Elish to go on a Crusade, he is fascinated by the tilecutter's stories. Before Donal leaves, the tilecutter cuts a penny in half and gives one piece to Donal, and one to Elish. The penny will be Donal's messenger: if Elish receives his half, she will know that he is dead. Not long after Donal and William's first bloody battle in the Holy Land in the army of Richard the Lion Heart, they become trapped in the desert fortress of Mont Salvach. The fortress belongs to the Knights Templar. But all is not as it seems, and they soon discover that the young Geoffrey d'Acre is also a prisoner. Geoffrey has undergone the Templars' terrifying initiation, but the knights believe that he is withholding information from them of the most precious kind: the location of sacred treasures from the Holy Sepulchre.Meanwhile in Ireland, Rufus takes to the role of lord with gusto. He begins to hatch a plan that will maintain his present power despite his brother -- and despite his father's wishes. In Donal's absence, Elish becomes more involved in the running of the village and the estate, and it is with concern that she sees a Culdee -- a follower of old ways -- persecuted and hunted. But she must also deal with Rufus's ambitions, which include his ambition to make her his own ... Before the two halves of the tilecutter's penny can be rejoined, both Donal and Elish must summon all their courage and daring to survive.The Tilecutter's Penny is a rich and gripping story of action and adventure, love and betrayal, and legendary treasures which some will risk anything to obtain.

Nissan Z: 50 Years of Exhilarating Performance is the Nissan-official chronicle of Z history, from Datsun's planning for the new model in the late 1960s through the latest 50th anniversary Nissan 370Z. The Datsun 240Z revolutionized the sports car industry and demolished established assumptions about Japanese automakers. With the Z, Datsun gave the world a sleek, sexy, fast product—one that forever banished the idea that Japanese manufacturers could only build economy cars. Over the past 50 years, six generations of the Z car have generated a massive, devoted following. More than 1.5 million cars have been sold worldwide. The retro-inspired 350Z reinvented the Z ’ s fortunes in the 21st century, and the latest incarnation, the 370Z, continues the tradition of high-performance in a modern, affordable package. In addition to a complete history of the Z, this handsomely illustrated book examines the car's significant racing history with successes in IMSA and SCCA sports car racing, including extensive racing by Paul Newman for Bob Sharp and John Morton with Brock Racing Enterprises. Special attention is devoted to the cult of Z-fans around the world who have supported Nissan's sports car through thick and thin and the early car ’ s emergence as a rapidly appreciating collector car. The story is told by author Pete Ewanow, who has enjoyed a long relationship with Nissan. His insights into the history of this automotive icon provide a fresh, compelling perspective on the five decades of the Z that no enthusiast will want to miss.
