DOCSIS defines a CMTS-to-CM, PHY-to-PHY distance of 100 miles (160 km) for DOCSIS 3.0 and 50 miles (80 km) for DOCSIS 3.1. Remote PHY maintains these distances. Because Remote PHY separates the DOCSIS MAC and PHY,

# Access Free Docsis Remote Phy Cisco

there is an additional distance specification. That is the MAC-to-MAC, CMTS Core to CM distance.
