At the forefront of research on English language teacher education and professional development, this volume presents new empirical research situated in different contexts around the world, including Canada, Denmark, Israel, Japan, Korea, Qatar, Sudan, and the U.S. It is framed by the volume editors' insightful overview and analyses of previous and ongoing work in a variety of related domains and an epilogue by David Nunan. The chapter studies are organized around three themes: teacher identity in ESL/EFL teacher education and professional development programs, second language teacher education programs for diverse contexts, and professional development for diverse contexts. All chapters focus on the applied nature of the research and include a section on implications. To provide balance and a range of views, the volume includes both chapters reporting on empirical research funded by TIRF grant recipients and several from invited authors who are senior scholars in the field. This is the third volume in the Global Research on Teaching and Learning English Series, co-published by Routledge and TIRF.

The Teacher Leader Guide for School-Wide English Learning provides a roadmap for capitalizing on the often untapped language expertise of ESL teachers. By providing teacher leaders with the tools needed to develop customized professional development and engage in non-evaluative peer instructional coaching, the School-Wide English Learning (SWEL) coaching model supports English learners' academic success throughout the school day, not just when there is a language specialist in the room.

A Practicum in TESOL is a valuable source book for both teacher educators and classroom teachers. It ranges widely across key areas of practice from the nitty-gritty of lesson planning and classroom management, through conceptual areas such as motivation and observation, to crucial if more abstract aspects, such as teachers' beliefs and values. It also delves into the moral and political dimensions of teaching. Discussion of these areas, though well-grounded in relevant academic literatures, is also supported by extensive quotes from real teachers working on their practice. The treatment is sufficiently challenging to interest the experienced teacher, while covering matters of basic practice that would be of concern to the beginner. Anyone doing a TESOL practicum will want to use this book whether as an in-service teacher or as a teacher longing to further their professional development. A Practicum in TESOL can be used individually or in groups.

100 TESOL Activities for Teachers is a teacher training manual and activity guide that has been used by teacher training groups from Korea, China, Japan, Iraq, Peru, Mexico and many other parts of the world as part of the popular TESOL Certificate Program: Teach English Now! from Coursera and Arizona State University. Designed to be practical, these techniques support the general need to communicate, interact, and make language come alive in the classroom. The manual is organized into 3 distinct parts: * The first section introduces teachers to some of the most common activities in English language teaching, followed by activities categorized by reading, writing, listening, speaking, vocabulary, and icebreakers. * The second section provides a unique model of lesson planning. This adaptable model helps teachers prepare organized routines to make classes more effective and easier to prepare. Includes activities for discussion, giving instructions, guided and less-guided practice, and

independent practice. * The third section includes downloadable, photocopiable worksheets for the activities described in the manual.
