He is the only world leader to have outlasted nine US presidents, has survived over 600 assassination attempts and remains one of the twentieth century s most controversial figures. Here Castro tells his story in full for the first time, speaking openly about everything from his parents and earliest influences to his imprisonment, guerrilla war and the Cuban revolution and on to the Bay of Pigs, the missile crisis and his relationship with Che Guevara. He also remembers the people he knew, from John F. Kennedy to Ernest Hemingway. Whatever your views on Castro are, this is an essential record of an incredible life and even more extraordinary times."

The intimate and highly revealing life story of the world's longest-serving, most charismatic, and controversial head of state in modern times. Fidel Castro was a dictatorial pariah to some and a hero and inspiration for many of the world's poor, defiantly charting an independent and revolutionary path for Cuba over nearly half a century. Numerous attempts were made to get Castro to tell his own story. But only in the twilight of his years was he prepared to set out the details of his remarkable biography for the world to read before his death in 2016. This book is nothing less than his living testament. In these pages, Castro narrates a compelling chronicle that spans the harshness of his elementary school teachers; the

early failures of the revolution; his intense comradeship with Che Guevara and their astonishing, against-all-odds victory over the dictator Batista; the Cuban perspective on the Bay of Pigs and the ensuing missile crisis; the active role of Cuba in African independence movements (especially its large military involvement in fighting apartheid South Africa in Angola); his relations with prominent public figures such as Boris Yeltsin, Pope John Paul II, and Saddam Hussein; and his dealings with no less than ten successive American presidents, from Eisenhower to George W. Bush. Castro talks proudly of increasing life expectancy in Cuba; of the half million students in Cuban universities; and of the training of seventy thousand Cuban doctors nearly half of whom work abroad, assisting the poor in Africa, Asia, and Latin America. He confronts a number of thorny issues, including democracy and human rights, discrimination toward homosexuals, and the presence of the death penalty on Cuban statute books. Along the way he shares intimacies about more personal matters: the benevolent strictness of his father, his successful attempt to give up cigars, his love of Ernest Hemingway's novels, and his calculation that by not shaving he saves up to ten working days each year. Drawing on more than one hundred hours of interviews with Ignacio Ramonet, a knowledgeable and trusted interlocutor, this spoken autobiography will stand as the definitive record of an extraordinary life lived in turbulent times.

A revelatory memoir of the 17 years Juan Sanchez spent as one of Fidel Castro's personal soldiers, in his innermost circle

Fidel Castro is one of the most interesting and controversial personalities of our time – he has become a myth and an icon. He was the first Cuban Caudillo – the man who freed his country from dependence on the USA and who led his people to rediscover their national identity and pride. Castro has outlived generations of American presidents and Soviet leaders. He has survived countless assassination attempts by the CIA, the Mafia, and Cubans living in exile. He has become one of the greatest politicians of the 20th Century. His biography, and the history of his country exemplify the tensions between East and West, North and South, rich and poor. As Castro's life draws to a close, the question as to what will become of Cuba is more important than ever. Will Castro open Cuba to economic reform and democratization, or stick to his old slogan socialism or death? In this remarkable, up-to-date reconstruction of Castro's life, Volker Skierka addresses these questions and provides an account of the economic, social, and political history of Cuba since Castro's childhood. He draws on a number of little-known sources, including material from the East German communist archives on Cuba, which were until recently inaccessible. This is an exciting, painstakingly researched, and authoritative account of the life of one of the most extraordinary political figures of our time.

"Mommy, mommy, call him. Tell him to come here right away. I have so many things to tell him!" I had a ton of things to tell him. I wanted him to find a solution to all the shortages of clothes; of meat, so it would again be distributed through the ration books. I also wanted to ask him to give our Christmas back. And to come live with us. I wanted to let him know how much we really needed him... Fidel didn't answer my letter. I kept writing him letters from a sweet and well-behaved child, a brave but sad girl. Letters resembling those of a secret, spurned lover... As a girl growing up in Cuba, Alina Fernandez found nothing abnormal in the fact that Fidel Castro would occasionally visit her house bearing gifts just for her. At the age of ten, her mother finally told her the truth: she was Castro's Daughter.

This intimate, revisionist portrait of Fidel Castro, showing how an unlikely young Cuban led his country in revolution and transfixed the world, is "sure to become the standard on Castro's early life" (Publishers Weekly). Until now, biographers have treated Castro's life like prosecutors, scouring his past for evidence to convict a person they don't like or don't understand. Young Castro challenges us to put aside the caricature of a bearded, cigar-munching, anti-American hothead to discover how Castro became the dictator who acted as a thorn in the side of US presidents for nearly half a century. In this "gripping and edifying narrative...Hansen brings imposing research and notable erudition" (Booklist) to Castro's early life, showing Castro getting his toughness from a father who survived Spain's class system and colonial wars to become one of the most successful independent plantation owners in Cuba. We see a boy running around that plantation more comfortable playing with the children of his father's laborers than his own classmates at elite boarding schools in Santiago de Cuba and Havana. We discover a young man who writes flowery love letters from prison and contemplates the meaning of life, a gregarious soul attentive to the needs of strangers but often indifferent to the needs of his own family. These pages show a liberal democrat who admires FDR's New Deal policies and is skeptical of communism, but is also hostile to American imperialism. They show an audacious militant who stages a reckless attack on a military barracks but is canny about building an army of resisters. In short, Young Castro reveals a complex man. The first American historian in a generation to gain access to the Castro archives in Havana, Jonathan Hansen was able to secure cooperation from Castro's family and closest confidants. He gained access to hundreds of never-before-seen letters and interviewed people he was the first to ask for their impressions of the man. The result is a nuanced and penetrating portrait of a man at once brilliant, arrogant, bold, vulnerable, and all too human: a man who, having grown up on an island that felt like a colonial cage, was compelled to lead his country to independence.

"A compelling fictional personage-by turns arrogant, funny, pompous, lewd, self-absorbed and self-deluding."—Michiko Kakutani, New York Times An audacious "biography" of the ex-president of Cuba told in Castro's own outrageous, bombastic voice. Prize-winning author and journalist Norberto Fuentes was once a revolutionary: a writer with privileged access to Fidel Castro's inner circle during some of the most challenging years of the revolution. But in the late 1990s, as the regime began sending its oldest comrades to the firing squad, he became A Man Who Knew Too Much. Escaping a death sentence and now living in exile, Fuentes has written a brilliant, satirical, and utterly captivating "autobiography" of the Cuban

leader—in Fidel's own arrogant and seductive language—discussing everything from Castro's early sexual experiences in Birán to his true feelings about Che Guevara and his philosophy on murder, legacy, and state secrets. Critics have long admired Fuentes's writing; one U.S. article called him "Norman Mailer's Cuban pen pal." Akin to Gertrude Stein's *The Autobiography of Alice B. Toklas*, or Edmund Morris's *Dutch*, this wickedly entertaining, true-to-life masterpiece is as imaginative and oversized as Castro himself.
