The purpose of Kate’s trip is to document an elephant-led safari for the National Geographic magazine.

‘Forest of the Pygmies’ by Isabelle Allende | Wright Reading

The Aka Pygmies living in the Dzanga-Sangha Special Reserve in Central African Republic. There are roughly 500,000 Pygmies left in the rain-forest of Central Africa. This population is rapidly decreasing as poverty, intermarriage with Bantu peoples, Westernization, and deforestation gradually destroy their way of life and culture.

Who are the African Pygmies? – African Explorer Magazine

The African Pygmies (or Congo Pygmies, variously also "Central African foragers", "African rainforest hunter-gatherers" (RHG) or "Forest People of Central Africa") are a group of ethnicities native to Central Africa, mostly the Congo Basin, traditionally subsisting on a forager and hunter-gatherer lifestyle. They are divided into three roughly geographic groups:

African Pygmies – Wikipedia

Forest of the Pygmies is the concluding volume of acclaimed author Isabel Allende’s celebrated trilogy, which begins with City of the Beasts and continues with Kingdom of the Golden Dragon.

Forest of the Pygmies is the concluding volume of acclaimed author Isabel Allende’s celebrated trilogy, which begins with City of the Beasts and continues with Kingdom of the Golden Dragon. Product Details

Forest of the Pygmies – HarperCollins

Like the precedent volumes of the trilogy, this book is great. Allende descriptions are enchanting, and one can learn a little about the misconceived continent Africa. However, the plot is totally predictable for anyone who has read the previous books of the threesome, though Alex and Nadia’s relationship is finally evolving.

Forest of the Pygmies – Amazon.co.uk: Allende, Isabel

The final installment of Isabel Allende's celebrated trilogy of the journeys of Jaguar and Eagle soars with radiant settings, spirits, beings, and the transformation of an extraordinary friendship, as Alexander and Nadia embark on mission in Kenya that begins as a search for elephants and ends up exposing a system of injustices. Alexander Cold knows all too well his grandmother Kate is never far from an adventure. When International Geographic commissions her to write an article about the first elephant-led safaris in Africa, they head—with Nadia Santos and the magazine's photography crew—to the blazing, red plains of Kenya. Days into the tour, a Catholic missionary approaches their camp in search of his companions who have mysteriously disappeared. Kate, Alexander, Nadia, and their team, agreeing to aid the rescue, enlist the help of a local pilot to lead them to the swampy forests of Ngoubé. There they discover a clan of Pygmies who unveil a harsh and surprising world of corruption, slavery, and poaching. Alexander and Nadia, entrusting the magical strengths of Jaguar and Eagle, their totemic animal spirits, launch a spectacular and precarious struggle to restore freedom and return leadership to its rightful hands.

Once again Alexander Cold and his indomitable journalist grandmother, Kate, are braving the mystical unknown, this time in the heart of Africa. Along with Alex's friend Nadia Santos and a photographic crew from International Geographic magazine, they have travelled to Kenya to work on an article about the continent's first elephant-led safaris. But when a missionary approaches their camp in search of companions who have mysteriously disappeared, Alex, Nadia, and their group find themselves embarking on a dangerous mission to Africa’s equatorial forest to aid a clan of Pygmies. For the Cold expedition is the tribe's last hope for survival in a world where poaching, corruption, and slavery run rampant. Forest of the Pygmies is the concluding volume of acclaimed author Isabel Allende’s celebrated trilogy, which begins with City of the Beasts and continues with Kingdom of the Golden Dragon.

Eighteen-year-old Alexander Cold and his grandmother travel to Africa on an elephant-led safari, but discover a corrupt world of poaching and slavery.

This intimate study portrays the hunter-gatherer Mbuti pygmies of Zaire. Kevin Duffy describes how these forest nomads, who are as adapted to the forest as its wildlife, gratefully acknowledge their beloved home as the source of everything they need: food, clothing, shelter, and affection. Looking on the forest in deified terms, they sing and pray to it and call themselves its children. With his patience and knowledge of their ways, Duffy was accepted by these, the worlds smallest people, and invited to participate in the cycle of their lives from birth to death.

Forest of the Pygmies – Amazon.co.uk: Allende, Isabel

As a young man, American Louis Sarno heard a song on the radio that gripped his imagination. With some funding from musician Brian Eno, he followed the mysterious sounds all the way to the Central African rain forest and found their source with the Bayaka Pygmies, a tribe of hunters and gatherers. Nothing could have prepared him for life among the Pygmies, a people legendary for their short stature and musical wealth. Sarno never left. Considered outwardly lazy by some, scrounging, and near alcoholic, the Pygmies Sarno met had seemingly lost all desire to hunt or make music. Only after he had lived with them for some time (on a diet of tadpoles) was he allowed to join them in the rain forest where they still in relative harmony with nature. There Sarno experienced the extraordinary beauty and spiritual sophistication of their culture and the supreme importance of music as the principal means by which they communicate with the rain forest and its magical spirits. Over the decades Sarno has recorded more than 1,000 hours of unique Bayaka music. He is a fully accepted member of the Bayaka society and married a Bayaka woman. Permanently changed by his experience and captivated by a Bayaka culture, In Song from the Forest Sarno has chronicled his attempt to protect the fragile existence of the Pygmies in an increasingly destructive world. Once, when his son, Samedì, became seriously ill and Sarno feared for his life, he held his son in his arms through a frightful night and made him a promise: “If you get through this, one day I’ll show you the world I come from.” Now the time has come to fulfill his promise. In a new major documentary film, Sarno tells the story of the Bayaka as he travels with Samedì from the African rain forest to another jungle, one of concrete, glass, and asphalt: New York City. Together, they meet Louis’ family and old friends, including his closest friend from college, Jim Jarmusch. Carried by the contrasts between rainforest and urban America, and a fascinating soundtrack, Louis’ and Samedì’s stories are interwoven to form a touching portrait of an extraordinary man and his son. SONG FROM THE FOREST is a modern epic film set between rainforest and skyscrapers.

The Forest People is an astonishingly intimate and life-enhancing account of a hunter-gatherer tribe living in harmony with nature -- and an all-time classic of anthropology. For three years, Colin Turnbull lived with an isolated group of Pygmies deep in the forest of the African Congo, experiencing their daily life first-hand. He attended their hunting parties and initiation ceremonies, witnessed their music and their rituals, observed their quarrels and love affairs. He documented them as an anthropologist but was accepted among them as a friend. A ground-breaking work in its time, The Forest People made him one of the most famous intellectuals of the 1960s and 1970s. It remains a transporting account of an earthly paradise and of a legendary and fascinating people. With a new foreword by Horatio Clare.

"Efe Pygmies is a portrait of an endangered people and place. This volume presents a visual portrayal of the Efe pygmies of the Congo, the world's oldest pure-blooded ethnic group and one of its most remote." "Through this book's photography and text, the world can now discover a way of life that has remained intact for thousands of years deep within the reaches of the Ituri rain forest. This volume reflects the seasonally based life of the Efe: boys and men at hunt, family life in the camps, dancing and music making, and bark and body painting. Providing a unique perspective on a people who have been virtually inaccessible until now and capturing the mysterious, sensual quality of the rain forest itself, this special edition is a unique treasure that sheds unprecedented light on an endangered people and environment."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
