Teachers are unable set a well standardised balanced grade 9 Mathematics question paper; they set what they can teach, mark and understand and not according to the normal standards for grade 9. A national paper can raise the standard of Mathematics and ensure that learners receive quality Mathematics education up to grade 9.

The chapters in this book should stimulate the reader not only to

think about the kind of leadership that is needed to improve schools in the Caribbean (using 'schools' in the widest sense to range from early childhood to higher education institutions) but also other forms of support. The book deals in detail with issues of leadership. At the theoretical level there is exploration of appropriate models of leadership in the effort to create effective schools. At the practical level the importance of the principal's role is explored. This book is very timely and should prove informative not only to current and prospective leaders but also to students and scholars both locally and internationally with an interest in Caribbean education. The chapters are written in a sufficiently user- friendly style to be of interest also to the general public who want to see the process of transformation realised in our education systems.

Education in the Commonwealth Caribbean and Netherlands Antilles provides a contemporary survey of education development and key educational issues in the region. The chapters cover: Anguilla, Antigua and Barbuda, the Bahamas, Barbados, Belize, Bermuda, the British Virgin Islands, the Cayman Islands, Dominica, Grenada, Guyana, Jamaica, the Netherlands Antilles (Aruba, Bonaire, Curacao, Saba, Saint Eustatius and Saint Maarten), Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Surinam, Trinidad and Tobago, and the Turks and Caicos Islands. The book includes discussions of the impact of local, regional and global occurrences, including social, political and geographical events, on education systems and schooling in the region. As a whole, the book provides a comprehensive reference resource for contemporary education policies in the Caribbean, and

explores some of the problems these countries face during the process of development. It is an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

In the history, the very personality, of New York City, few events loom larger than the wave of immigration at the turn of the last century. Today a similar influx of new immigrants is transforming the city again. Better than one in three New Yorkers is now an immigrant. From Ellis Island to JFK is the first in-depth study that compares these two huge social changes. A key contribution of this book is Nancy Foner's reassessment of the myths that have grown up around the earlier Jewish and Italian immigration—and that

deeply color how today's Asian, Latin American, and Caribbean arrivals are seen. Topic by topic, she reveals the often surprising realities of both immigrations. For example:

- Education: Most Jews, despite the myth, were not exceptional students at first, while many immigrant children today do remarkably well.
- Jobs: Immigrants of both eras came with more skills than is popularly supposed. Some today come off the plane with advanced degrees and capital to start new businesses.
- Neighborhoods: Ethnic enclaves are still with us but they're no longer always slums—today's new immigrants are reviving many neighborhoods and some are moving to middle-class suburbs.
- Gender: For married women a century ago, immigration often, surprisingly, meant less opportunity to work outside the home. Today, it's just the opposite.
- Race: We see Jews and Italians as whites today, but

to turn-of-the-century scholars they were members of different, alien races. Immigrants today appear more racially diverse—but some (particularly Asians) may be changing the boundaries of current racial categories. Drawing on a wealth of historical and contemporary research and written in a lively and entertaining style, the book opens a new chapter in the study of immigration—and the story of the nation's gateway city.
