Handbook of psychology. Health psychology | Irving B ...

Psychological anthropolgy is an interdisciplinary subfield of anthropolgy that studies the interaction of cultural and mental processes. This subfield tends to focus on ways in which humans' development and enculturation within a particular cultural group—with its own history, language, practices, and conceptual categories—shape processes of human cognition, emotion, perception, motivation, and mental health. It also examines how the understanding of cognition, emotion, motivation, and ...
