This book will show you how to: Become energized and overcome riding challenges Highlight progress and success within your goal setting Conquer anxiety and develop a positive attitude Stay in the moment during your ride Fine-tune your visualization skills Build a consistent preparation routine Communicate well with trainers, partners, parents, or fellow boarders "Inside Your Ride" is also filled with inspiring quotes, stories, and insights from Olympic and world-class riders and trainers, including Margie Engle, John French, Guenter Seidel, Anne Kursinski, McLain Ward, Gina Miles, and Missy Clark, who share their personal mental preparation strategies. "

THE TOP 10 BESTSELLER FROM THE MOST DECORATED BRITISH FEMALE OLYMPIAN IN HISTORY 'Refreshingly honest [...] a highly enjoyable, fascinating read.' Horse and Hound _____ "To ride into that arena, next to a sea of British flags and hear the roar of clapping and cheering, was so exciting. It's a sound I will never, ever forget." Charlotte Dujardin and her charismatic horse Valegro burst onto the international sports scene with their record-breaking performance at the London, 2012 Olympics. The world was captivated by the young woman with the dazzling smile and her dancing horse. But no one quite knew what it took to get there, nor how hard the path to success would be - until now. Dujardin began riding horses at the age of two, but dressage was firmly the domain of the wealthy, not the life of a girl from a middle-class family. Her parents sacrificed all and with a undeterred focus, Charlotte left school at 16 to follow her dream. When she was invited to be a groom for the British Olympian Carl Hester, she began to ride Valegro, a dark bay gelding and an unbreakable bond was formed. This is their incredible story.

An integral part of competing in equestrian sports is having to face the performance anxiety that presents itself at competitions. In this work, author Daniel Stewart explains that the pressure, stress, nerves, distraction, and anxiety come hand in hand with doing what we love to do. It also reminds us that competing in equestrian events is a real sport, and riders are forced to deal with the competitive nature of showing. Stewart explains that, while riders love to do what they do, this love is sometimes lost in the panic of showing and performing. Stewart then walks the rider through specific tools and tricks to manage and overcome the stress, fear, and anxiety, and how to embrace and enjoy every minute of performing with your equine partner. From "Plan the Ride, and Ride the Plan," to overall mental training, this must-have book is a fantastic tool for any competitor to overcome their show jitters and do their best at every competition, while feeling confident and happy throughout the experience.

THE SUNDAY TIMES HISTORY BOOK OF THE YEAR 2017 'A beautiful and thoughtful exploration of the role of the horse in creating our world' James Rebanks 'Scintillating, exhilarating ... you have never read a book like it ... a new way of considering history' Observer The relationship between horses and humans is an ancient, profound and complex one. For millennia horses provided the strength and speed that humans lacked. How we travelled, farmed and fought was dictated by the needs of this extraordinary animal. And then, suddenly, in the 20th century the links were broken and the millions of horses that shared our existence almost vanished, eking out a marginal existence on race-tracks and pony clubs. Farewell to the Horse is an engaging, brilliantly written and moving discussion of what horses once meant to us. Cities, farmland, entire industries were once shaped as much by the needs of horses as humans. The intervention of horses was fundamental in countless historical events. They were sculpted, painted, cherished, admired; they were thrashed, abused and exposed to terrible danger. From the Roman Empire to the Napoleonic Empire every world-conqueror needed to be shown on a horse. Tolstoy once reckoned that he had cumulatively spent some nine years of his life on horseback. Ulrich Raulff's book, a bestseller in Germany, is a superb monument to the endlessly various creature who has so often shared and shaped our fate.

Would you like to enable your horse to perform and feel better, to overcome old limitations and restrictions and reach its full potential? In this book, Jim Masterson, Equine Massage Therapist for the 2006 and 2008 and 2010 USET Endurance Teams, and for equine clientele competing in FEI World Cup, Pan American and World Games competitions, teaches a unique method of equine bodywork, in which the practitioner recognizes and follows the responses of the horse to touch to release tension in key junctions of the body that most affect performance. This practical book: * has step-by-step instructions, photographs and illustrations * is ideally suited to accompany you to the barn, where you will practice the Masterson Method® techniques on horses. * includes chapters with Tips & Techniques, anatomical explanations and examples from Jim's practice help deepen your understanding. * has a "quick reference" section will point you to exercises that are specifically suited to your particular discipline, may it be dressage, endurance, eventing or barrel racing, or others in the vast realm of horse sports. By using these techniques, and knowing the responses to look for, you are able to: * achieve a release of accumulated stress in deep-seated key junctions of the horse's body that affects mobility, comfort, attitude, training and performance * restore muscular and structural balance, and natural alignment * enable your horse to perform optimally and respond to your training without stiffness and pain * achieve new levels of communication and trust with your horse that spill over into other areas of interaction.

Still the only book on how to judge hunt-seat show classes! Experienced instructor and United States Equestrian Federation (USEF) registered judge Anna Jane White-Mullin provides the definitive resource for aspiring judges and competitors alike. Judging Hunters includes: 100 photographs of correct and incorrect positions of horses and riders; explanations of how to develop an eye for conformation classes, score hunters, and equitation riders on the flat and over fences; and a complete discussion of 2006 USEF rules and tests. This new, revised edition continues to be a valuable asset to those preparing for a career as a trainer or judge, or just moving up through the ranks of hunter/jumper competition. Anna Jane White-Mullin serves as a judge, clinician, and lecturer throughout North and South America.

An easy-to-implement framework proven to grow rider confidence, tested by the world ' s leading equestrian athletes. Without confidence, achievement in competition is unattainable. When confidence is lacking in any sport, equestrian included, chances are your career will be short. Renowned performance coach John Haime has written the book to counter this challenge, providing the mental tools riders need to be better under pressure of all kinds and consistently succeed. Equestrian sport is a partnership: there ' s an equine athlete, and there ' s a human athlete. Haime notes that often, there is an investment in world-class training for one partner (the horse), but not the other (the human). This compromises the potential effectiveness of the horse-and-rider team. It just makes sense for equestrians to develop their own skills—mental and physical—and bring more to the partnership. Haime explains that there is what he believes is a crisis of confidence in modern equestrian sport. This has a variety of causes, including: a lack of fundamental mental/emotional structure and development, the presence and prominence of technology in the rider ' s life, and the constant comparisons inherent in social media and a technically "connected" existence. Addressing this crisis enables equestrians of all ages and abilities to: communicate better with their horses, both in day-to-day interactions and competition; absorb more in valuable learning situations, such as lessons and clinics; and perform their best when the stakes are high, as when heading into the jump-off or approaching the last fence on the cross-country course. > Haime invites readers to dive into three clear and informative areas of exploration: The Confidence Base: Firm up the fundamentals. The Confidence Builders: Systems and tips to help you build confidence. The Confidence Threats: An inside look at what to watch out for in riding and in competition. Throughout, those who have reached the highest levels on horseback in a number of disciplines share their stories, including Michael Jung, Beezie Madden, McLain Ward, Laura Tomlinson, Harry Meade, Oliver Townend, Mattias Tromp, Casey Deary, Beth Underhill, Fred Mannix, Jarred Zenni, Beth Underhill, Jonathon Millar, and Kelly Soleau-Millar. These Olympians, champions, and medalists explain what they do in the saddle and how their techniques for performing under world-class pressure might help other riders develop a similar kind of confidence. Perhaps even more valuable are the struggles these top competitors share, giving readers the rare opportunity to see how even "the best of the best" are human, too. > The way riders develop confidence in their equestrian lives is transferable to everything they do: a confident rider can be a confident business person, confident worker, confident spouse, confident parent, and confident friend. In this way, Ride Big™ instills a skill of worth and promise that extends far beyond the show ring.

Course design is a major factor in the success of any show jumping tournament, and designing a course is a creative and involved task. With this in mind, Arno Gego, FEI Official International Course Designer and co-founder of the Aachen School of Course Design, has compiled the ultimate course designer's Bible, covering everything from the sport's historical roots to calculating speeds, times and distances, from drawing up a masterplan to addressing safety issues.

This book will help you learn how to understand your horse's nonverbal language, gestures, and behaviors so you can communicate effectively with them. When you learn how horses communicate with one another and adjust your nonverbal body language, gestures, and energy to communicate back in a similar manner, you can begin to create a two-way conversation that makes sense to the horse.
