Hydrology and Floodplain Analysis (5th Edition): Bedient ...

For undergraduate and graduate courses in Hydrology. This text offers a clear and up-to-date presentation of fundamental concepts and design methods required to understand hydrology and floodplain analysis. It addresses the computational emphasis of modern hydrology and provides a balanced approach to important applications in watershed analysis, floodplain computation, flood control, urban hydrology, stormwater design, and computer modeling.

Hydrology and Floodplain Analysis | 5th edition | Pearson

For undergraduate and graduate courses in Hydrology. This text offers a clear and up-to-date presentation of fundamental concepts and design methods required to understand hydrology and floodplain analysis. It addresses the computational emphasis of modern hydrology and provides a balanced approach to important applications in watershed analysis, floodplain computation, flood control, urban hydrology, stormwater design, and computer modeling.

9780132567961: Hydrology and Floodplain Analysis (5th ...

Hydrology and floodplain analysis, 5th edition Robert W. Peters PhD, PE Professor of Environmental Engineering, Department of Civil, Construction, and, Environmental Engineering, University of Alabama at Birmingham, 1075 13th Street South, Birmingham, AL 35294;4440
