For anybody -
but especially
students -

interested in
exploring the
subject of
international

Online Library International

Economics, this
is the book to
start with. It
is illuminating
(as it is always
the case with
Krugman's
writings) on
otherwise
technical
concepts as
comparative
advantage, trade
policy and

Online Library International

exchange rate

determinants,
but it is also
entertaining,

with its

"reality
checks".
