As an outsider, a josser (a person who works in the circus who's not from a circus family), she's treated with initial coldness, then accepted into the circus community, one where loyalty and comradeship are entwined, always, with viperous and self-serving behaviour, where grudges are common but transient, and where the romance of the circus image is balanced, if not entirely replaced, by the unending slog of its reality – surviving against the indifference of audiences, against the ...

It also shows what the politically correct British are doing to their way of life - killing it. Stroud laments an England gone by and I think the best quote of the book has to be.. 'I doubt Santos circus will ever have an e-mail address..it is just a circus.'

JOSSER is the powerful and moving account of Oxford-educated Nell Stroud's life in the circus. It is also the story of the people of the circus: the trapeze artists, the clowns, the high-wire acts, the grooms, the llamas, the elephants - their commitment and expertise, their hard, marginalised, miraculous lives. Following a terrible riding accident which left her mother permanently brain-damaged, Nell ran away to the circus. What she found there was a life which became more real to her than the one she left behind. She found people who had sacrificed their lives for their art, who worked in all weathers, perfecting some of the most dramatic and beautiful acts ever seen. She found third-generation show-people who travelled around forgotten parts of Britain to bring their abstract, polished, multi-layered show to ever dwindling audiences. She found herself in an art form that soon, if we are not careful, we will lose. Whilst she has lived and worked among the circus people for several years, she is not one of them: she was not born in the circus. In their words she is a 'josser' a person in the circus from the outside world. This is her story. 'The circus does cast a spell over some people. I felt overwhelmed by it. The circus filled up existence and left room for nothing else. What was there to do?

Now available in paperback, this volume presents a theory of the circus as a secular ritual and introduces a method to analyze its performances as multimodal discourse. The book's fifteen chapters cover the range of circus specialties (magic, domestic and wild animal training, acrobatics, and clowning) and provide examples to show how cultural meaning is produced, extended and amplified by circus performances. Bouissac is one of the world's leading authorities on circus ethnography and semiotics and this work is grounded on research conducted over a 50 year span in Europe, Asia, Australia and the Americas. It concludes with a reflection on the potentially subversive power of this discourse and its contemporary use by activists. Throughout, it endeavours to develop an analytical approach that is mindful of the epistemological traps of both positivism and postmodernist license. It brings semiotics and ethnography to bear on the realm of the circus.

"Following...their anthology, Poems That Make Grown Men Cry, father-and-son team Anthony and Ben Holden, working with Amnesty International, have asked the same revealing question of 100 remarkable women. What poem has moved you to tears? The poems chosen range from the eighth century to today, from Rumi and Shakespeare to Sylvia Plath, W.H. Auden to Carol Ann Duffy, Pablo Neruda and Derek Walcott to Imtiaz Dharker and Warsan Shire. Their themes range from love and loss, through mortality and mystery, war and peace, to the beauty and variety of nature."--

"Everyone wants presentations to be as memorable as possible, The key, of course, is to engage the audience. Keep them interested and inspired and they'll never forget you or your message. But how? By following the refreshingly original advice provided here by Eleri Sampson: Rule one: leave the PowerPoint at home. Rule two: think of new ways of getting your message across. This book is bursting with fresh, innovative and imaginative ideas that will fire up your audience time after time." - back cover.

Talks about the country dweller, who sees his or her world eroded by the wishy-washy liberal commands of Blairite do-gooders, who sit in North West London pontificating about the needs of country people. This book also deals with the devastations of the foot and mouth crisis that showed how the great divide between town and country dwellers.
