Robots build! At their Program in Architecture and Digital Production at the Eidgenössische Technische Hochschule (ETH) Zürich (Swiss Federal Institute of Technology in Zurich), the architects Gramazio & Kohler have installed a research facility that is unique in the world. It is based on a computer-controlled industrial robot that produces construction elements directly from design data. The robot works flexibly with a tremendous range of tools and materials. In this way Gramazio & Kohler probe the exciting potential of digital design, construction, and manufacturing techniques for architecture. Gramazio & Kohler attracted widespread attention with the sWISH Pavilion at the Swiss National Exposition Expo 02 and the new Christmas lighting display on Zurich's Bahnhofstrasse. In their projects they incorporate insights and discoveries from the field of computer-aided production into the architectonic design process, using computers to develop innovative construction techniques and architecture. First structures using robots have already been built. Thus, the much noted Gantenbein vineyard in Fläsch employs facades with individually laid bricks for the first time. This publication places explosive insights, theses, and conclusions from the dialectic between physically experienceable architecture and digital processes up for debate.

He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ...
