Coaching is an essential skill for leaders. But for most busy, overworked managers, coaching employees is done badly, or not at all. They're just too busy, and it's too hard to change. But what if managers could coach their people in 10 minutes or less? In Michael Bungay Stanier's The Coaching Habit, coaching becomes a regular, informal part of your day so managers and their teams can work less hard and have more impact. Coaching is an art and it's far easier said than done. It takes courage to ask a question rather than offer up advice, provide an answer, or unleash a solution. Giving another person the opportunity to find their own way, make their own mistakes, and create their own wisdom is both brave and vulnerable. It can also mean unlearning our "fix it" habits. In this practical and inspiring book, Michael shares seven transformative questions that can make a difference in how we lead and support. And, he guides us through the tricky part - how to take this new information and turn it into habits and a daily practice. - Brené Brown, author of Rising Strong and Daring Greatly Drawing on years of experience training more than 10,000 busy managers from around the globe in practical, everyday coaching skills, Bungay Stanier reveals how to unlock your peoples' potential. He unpacks seven essential coaching questions to demonstrate how---by saying less and asking more---you can develop coaching methods that produce great results. - Get straight to the point in any conversation with The Kickstart Question - Stay on track during any interaction with The AWE Question - Save hours of time for yourself with The Lazy Question, and hours of time for others with The Strategic Question - Get to the heart of any interpersonal or external challenge with The Focus Question and The Foundation Question - Finally, ensure others find your coaching as beneficial as you do with The Learning Question A fresh, innovative take on the traditional how-to manual, the book combines insider information with research based in neuroscience and behavioural economics, together with interactive training tools to turn practical advice into practiced habits. Dynamic question-and-answer sections help identify old habits and kick-start new behaviour, making sure you get the most out of all seven chapters. Witty and conversational, The Coaching Habit takes your work--and your workplace--from good to great.

Declare Y.E.S. loud and clear to create new possibilities in your life and leadership.

Whether you're an executive officer, a department manager, or a shift supervisor, you have a clear understanding of your team members' top accountabilities. Without clear communication, your team may not share that understanding. They may have entirely different views on their job responsibilities and even why they're getting paid. This disconnect between managerial and staff opinions can devastate productivity, performance, and team morale. In *The 3 x 5 Coach*, market strategist and leadership expert Dave Baney offers a simple, direct solution to this problem. Baney's effective methodology helps supervisors and employees quickly agree on key job accountabilities while establishing objective systems for evaluating employee performance and growth. Simply put, everyone will know why they're getting paid and what they must do to continue to meet and exceed their job requirements. Baney's effective coaching system encourages collaboration between supervisors and staff. His methodology and tools are simple enough to use immediately and robust enough to scale up as your company or department evolves. You already hold employees accountable for their actions-now you can align their expectations with your own. It all starts with a blank 3 x 5 card.

You're trying to help--but is it working? Helping others is a good thing. Often, as a leader, manager, doctor, teacher, or coach, it's central to your job. But even the most well-intentioned efforts to help others can be undermined by a simple truth: We almost always focus on trying to "fix" people, correcting problems or filling the gaps between where they are and where we think they should be. Unfortunately, this doesn't work well, if at all, to inspire sustained learning or positive change. There's a better way. In this powerful, practical book, emotional intelligence expert Richard Boyatzis and Weatherhead School of Management colleagues Melvin Smith and Ellen Van Oosten present a clear and hopeful message. The way to help someone learn and change, they say, cannot be focused primarily on fixing problems, but instead must connect to that person's positive vision of themselves or an inspiring dream or goal they've long held. This is what great coaches do--they know that people draw energy from their visions and dreams, and that same energy sustains their efforts to change, even through difficult times. In contrast, problem-centered approaches trigger physiological responses that make a person defensive and less open to new ideas. The authors use rich and moving real-life stories, as well as decades of original research, to show how this distinctively positive mode of coaching--what they call "coaching with compassion"--opens people up to thinking creatively and helps them to learn and grow in meaningful and sustainable ways. Filled with probing questions and exercises that encourage self-reflection, *Helping People Change* will forever alter the way all of us think about and practice what we do when we try to help.

On-going coaching and development that can be a "game changer" for all employees! All great coaches know how to ask good open-ended questions and how to give effective feedback. They keep a balanced and honest perspective that separates the person from the problem or issue; coaching to leverage their unique strengths and helping them improve weaknesses with a mindset focused on continuous improvement. This ongoing coaching and development can be a "game changer" for all people and teams with access to it. But what about the teams and players that aren't empowered--or even allowed--to expand their roles? Or the team members whose careers don't inspire or play to their natural gifts, talents, and strengths? It's painful for any organization or manager when people on their team aren't given the tools to succeed; and more painful still when the team member doesn't yet realize it. But by coaching through leadership, any manager of any organization can create a supportive structure that helps assign the right roles, resources, tools, and career opportunities that will best leverage their strengths. Determines coachability and readiness for employee change and improvement Builds awareness to deal with the right issues, challenges, and opportunities Offers leaders/managers the tools to help a performer leverage their greatest gifts, talents, and strengths Allows for dialogue and tactics to close gaps in experience, communication styles, and personality Guides managers in how to have dialogue around difficult and important issues with their employees Includes coaching principles, practices, and tools with practical, real-world examples Offers strategies and tools to help employees become more motivated for effective change, action, and accountability Each chapter includes a series of powerful and provocative coaching questions for any leader or manager to use immediately in the workplace.
