Local Return Guidelines 2007 Edition I. PROGRAM SUMMARY A. INTRODUCTION The Proposition A and Proposition C Programs are funded by two 1/2 cent sales tax measures approved by Los Angeles County voters to finance a Transit Development Program. The Proposition A tax measure was approved in 1980 and the Proposition C tax measure was approved in 1990.

The future of disability in America will depend on how well the U.S. prepares for and manages the demographic, fiscal, and technological developments that will unfold during the next two to three decades. Building upon two prior studies from the Institute of Medicine (the 1991 Institute of Medicine's report Disability in America and the 1997 report Enabling America), The Future of Disability in America examines both progress and concerns about continuing barriers that limit the independence,

## Online Library Metro Lity Eligibility Guidelines

productivity, and participation in community life of people with disabilities. This book offers a comprehensive look at a wide range of issues, including the prevalence of disability across the lifespan; disability trends the role of assistive technology; barriers posed by health care and other facilities with inaccessible buildings, equipment, and information formats; the needs of young people moving from pediatric to adult health care and of adults experiencing premature aging and secondary health problems; selected issues in health care financing (e.g., risk adjusting payments to health plans, coverage of assistive technology); and the organizing and financing of disability-related research. *The Future of Disability in America* is an assessment of both principles and scientific evidence for disability policies and services. This book's recommendations propose steps to eliminate barriers and strengthen the evidence base for future public and private actions to reduce the impact of disability on individuals, families, and society.

A description of governmental programs to help individuals and communities meet their own goals for economic and social development.

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

The Housing Choice Voucher Program (HCVP) is the largest of the rental subsidy programs administered by HUD. In the HCVP, a family is offered a voucher, which it can use to rent any privately owned unit that meets program requirements. The HCVP "success rate" is the proportion of families issued a voucher who succeed in leasing a unit within the timeframe provided by the program. This volume examines success rates in metro areas. It finds that success rates vary with local market conditions. Importantly, success rates did not differ by such characteristics as the race, ethnicity, gender, or disability status of the head of household. This suggests that the voucher program works equally well for many different types of households. Illustrated.

Journal for the extra session, 1933/34, was issued with House Journal for that session; spine title: Journals Senate and House.

Healthcare decision makers in search of reliable information that compares health interventions increasingly turn to systematic reviews for the best summary of the evidence. Systematic reviews identify, select, assess, and synthesize the findings of similar but separate studies, and can help clarify what is known and not known about the potential benefits and harms of drugs, devices, and other healthcare services. Systematic reviews can be helpful for clinicians who want to integrate research findings into their daily practices, for patients to make well-informed choices about their own care, for professional medical societies and other organizations that develop clinical practice guidelines. Too often systematic reviews are of uncertain or poor quality. There are no universally accepted standards for developing systematic reviews leading to variability in how conflicts of interest and biases are handled, how evidence is appraised, and the overall scientific rigor of the process. In *Finding What Works in Health Care* the Institute of Medicine (IOM) recommends 21 standards for developing high-quality systematic reviews of comparative effectiveness research. The standards address the entire systematic review process from the initial steps of formulating the topic and building the review team to producing

## Online Library Metro Lity Eligibility Guidelines

a detailed final report that synthesizes what the evidence shows and where knowledge gaps remain. Finding What Works in Health Care also proposes a framework for improving the quality of the science underpinning systematic reviews. This book will serve as a vital resource for both sponsors and producers of systematic reviews of comparative effectiveness research.
