The powerful and beautiful Alfa Romeo Montreal coupé is the ultimate "dream car that came true." Created as a futuristic concept car for Canada's Expo 67 World Fair, the exciting prototype was a dream car par excellence. The production model to which it gave birth was equipped with a race-bred 200bhp V8 engine, and manufactured in series from 1970 to 1977. Almost 4,000 Montreals were built, and sound cars are readily available today at very affordable prices. This book is a comprehensive pictorial tribute to the Montreal, a visual testimonial to the combined talents of Alfa Romeo engineers and Bertone stylists. It highlights the fusion of technical ingenuity and aesthetics that created one of the most stunning series production automobiles of the twentieth century. The book explores the marriage of technology and art that appeals to both reason and the heart, combining man's rational desire for fast, efficient personal transportation with his emotive passion for exotic vehicles. In a portfolio of over 500 illustrations, it paints a unique and detailed graphic portrait of all the facets of this elegant and potent

classic GT, revealing why it is immensely enjoyable to drive and turns heads wherever it appears.

Ladybugs, snails, and butterflies! Oh my! This charming introduction to ten garden bugs, paired with friendly text and bold, basic patterns, provides a great high-contrast experience for young developing eyes. Newborns cannot fully recognize colors, so the sharp contrast between black and white patterns and illustrations allows babies to follow along and make connections to the real world, an important building block for communication skills. Using simple greetings like "Hello, bumblebee" and "Good to see you, dragonfly" alongside black-and-white art by Julissa Mora, Hello, Garden Bugs is the perfect board book for babies just beginning to look around and learn about their world. Featured in Omnivoracious. Also available: Hello, Baby Animals and Hello, Ocean Friends. Coming soon: Hello, My World.
