Neil Armstrong didn't grow up wanting to be an astronaut—because there were no astronauts in 1930. But he did love to fly from an early age, and after serving in the Korean War and then finishing college, he joined the organization that would eventually become NASA. As the first man to walk on the moon in 1969, his comment, "That's one small step for man, one giant leap for mankind," was heard by millions, and Neil Armstrong's influence on the world didn't stop there. From his early years in Ohio to his NASA career, to his later service as an aerospace professor and on Congressional panels, Neil Armstrong's life is a legacy to be admired, and this narrative biography illuminates his childhood.

Profiles Neil Armstrong (1930-) as part of the StarChild learning center site for young astronomers, a service of the NASA High Energy Astrophysics Science Archive Research Center. Details Armstrong's career as an astronaut. Highlights Armstrong's lunar landing.

Presents the childhood of the astronaut who became the first man to walk on the moon.

Dear Reader: The Childhood of Famous Americans series, sixty-five years old in 1997, chronicles the early years of famous American men and women in an accessible manner. Each book is faithful in spirit to

the values and experiences that influenced the person's development. History is fleshed out with fictionalized details, and conversations have been added to make the stories come alive to today's reader, but every reasonable effort has been made to make the stories consistent with the events, ethics, and character of their subjects. These books reaffirm the importance of our American heritage. We hope you learn to love the heroes and heroines who helped shape this great country. And by doing so, we hope you also develop a lasting love for the nation that gave them the opportunity to make their dreams come true. It will do the same for you. Happy Reading! The Editors

One of the most popular series ever published for young Americans, these classics have been praised alike by parents, teachers, and librarians. With these lively, inspiring, fictionalized biographies -- easily read by children of eight and up -- today's youngster is swept right into history.

An introduction to the life of astronaut Neil Armstrong, who was the first man to walk on the moon.

You've probably heard of Neil Armstrong and his historic moon landing. But other than that part of his life, what else do you know about him? This biography book will discuss the life of Armstrong before he even became

an astronaut. Do you share the same qualities as Neil Armstrong? Maybe you're destined for greatness too!

A biography concentrating on the boyhood of the cartoonist and film maker who created Mickey Mouse and Donald Duck.

From the age of ten, looking up at the stars, Jerry Ross knew that he wanted to journey into space. This autobiography tells the story of how he came not only to achieve that goal, but to become the most-launched astronaut in history, as well as a NASA veteran whose career spanned the entire US Space Shuttle program. From his childhood in rural Indiana, through education at Purdue University, and a career in the US Air Force, Ross charted a path to NASA after overcoming many setbacks—from failing to qualify for Air Force pilot training because of "bad" eyesight, to an initial failure to be selected into the astronaut program. The majority of the book is an insider's account of the US Space Shuttle program, including the unforgettable experience of launch, the delights of weightless living, and the challenges of constructing the International Space Station. Ross is a uniquely qualified narrator. During seven spaceflights, he spent 1,393 hours in space, including 58 hours and 18 minutes on nine space walks. Life on the ground is also described, including the devastating experiences of the Challenger and

Columbia disasters. For readers who have followed the space program from Mercury through the International Space Station and wonder what comes next, this book provides fascination; for young people interested in space exploration and reaching for their dreams, whatever they might be, this book provides inspiration. Full of stories of spaceflight that few humans have ever experienced, told with humor and honesty, Spacewalker presents a unique perspective on the hard work, determination, and faith necessary to travel beyond this world. Key Points: -An insider's account of the US Space Shuttle program, from before its first launch through the final landing, and the building of the International Space Station. -A firsthand account of life in space from the first human to fly seven missions. -An inspirational story of a personal journey from rural Indiana to outer space, powered by a deep Christian faith.

In this illustrated biography, young Apache Goyahkla and his friend play games in their village that will prepare him for his role as a hunter and warrior—and the place he will hold in history as Geronimo, fighter for the rights of his people.
