Abstract. Nonverbal behavior includes all communicative acts except speech. Communication means conveying information through signals. We use body language without being aware of it, perceive and interpret other people's body language. Three classes of nonverbal behavior are the verbal-vocal, nonverbal-vocal, and nonverbal-nonvocal.

Communication involves transmission of verbal and non-verbal messages. It consists of a sender, a receiver and channel of communication. In the process of transmitting messages, the clarity of the message may be interfered or distorted by what is often referred to as barriers. Health communication seeks to increase knowledge gain.

Eye contact is a strong nonverbal cue that serves four functions in communication (Hickson, 2010). First, eye contact regulates the flow of communication by signaling the beginning and end of conversation. Second, eye contact facilitates and monitors feedback, because it reflects interest and attention.
