New in version 8.0: This page documents the New API added in Odoo 8.0
which should be the primary development API going forward. It also
provides information about porting from or bridging with the “old API”
of versions 7 and earlier, but does not explicitly document that API.
See the old documentation for that.

Odoo has powerful grouping capacities, but they are kind-of strange in
that they're recursive, and level n+1 relies on data provided directly
by the grouping at level n. As a result, while
openerp.models.Model.read_group() works it's not a very intuitive API.
