This series has a lot to offer and so far it's only 2.5 books along. I started with the second of the Elemental books first and didn't feel that my understanding or my enjoyment suffered. As I read the first, little things came to light or I had small "ahhh" moments, but for the most part, these books are stand alone.

~~Born of Water (Elemental Origins, #1) by A.L. Knorr~~

Description / Buy. Print: The Origin series starts with The Didymus Contingency, the first of Jeremy's novels in which readers are introduced to Doctor Tom Greenbaum. Tom's wife was a pretty devoted Christian whose beliefs got her killed. The tragedy caused Tom's life to spiral.

The Expanse Origins Series. 4 primary works • 5 total works. A four-part tie-in prequel series for Syfy's The Expanse. Each issue focuses on a different member of the Rocinante crew. This follows the continuity of the Syfy television series and not the book series. More. Book 1.

"Perfect for fans of THRONE OF GLASS!" --Susan Dennard, NYT bestselling author On the day of her Presenting, in front of the entire Byern Court, seventeen-year-old Cyrene Strohm's lifelong plans come to fruition when she's chosen for one of the most prestigious positions in her homeland—an Affiliate to the Queen. Or so she thinks. When Cyrene receives a mysterious letter and an unreadable book, she finds nothing is as it seems. Thrust into a world of dangerous political intrigue and deadly magic, Cyrene's position only grows more treacherous when she finds herself drawn to the one man she can never have... King Edric himself. Cyrene must decide if love is truly worth the price of freedom. #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of The Warmth of Other Suns examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist "As we go

about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Search History oscillates between a wild cyberdog chase and lunch-date monologues as Eugene Lim deconstructs grieving and storytelling with uncanny juxtapositions and subversive satire. Frank Exit is dead—or is he? While eavesdropping on two women discussing a dog-sitting gig over lunch, a bereft friend comes to a shocking realization: Frank has been reincarnated as a dog! This epiphany launches a series of adventures—interlaced with digressions about AI-generated fiction, virtual reality, Asian American identity in the arts, and lost parents—as an unlikely cast of accomplices and enemies pursues the mysterious canine. In elliptical, propulsive prose, *Search History* plumbs the depths of personal and collective consciousness, questioning what we consume, how we grieve, and the stories we tell ourselves.

Reprint of the original, first published in 1868.

Public History: A Practical Guide explores history in the public sphere and examines the variety of skills that historians require in the practice of public history. It discusses how through various mediums of interpretation and presentation a range of actors, which include museums, archives, government agencies, community history societies and the media and digital media, make history accessible to a wider audience. It provides the reader with an overview of the wider-world application and communication of history beyond the classroom through core case studies for each sector that include ideas for best practice 'in the field'. This book offers an accessible and engaging synopsis of a topic that has not previously been covered. By focusing on an area of study that has changed substantially in the last decade, Public History: A Practical Guide presents a comprehensive outline of the practice of 'public history', and provides ideas for future methodological approaches as well as a reference point for planning professional development in order to gain future employment in these sectors. In the current economic climate, students need to understand the potential use of history beyond university; this book contains the tools and advice needed for them to get one step ahead in terms of knowledge, skills and experience.
