With a simple stamp you always ink the surfaces that are raised and lies on top of the surface - these areas will be the coloured areas on a sheet of paper once you've pressed it down. Intaglio printmaking is the exact opposite, you are carving lines into a surface for example a metal plate. You then fill the grooves with ink and leave the surface clean before printing. You then have to put ...

What is Screen Printing? Screen printing is a technique that uses a mesh and a negative stencil to print a repeatable image. A squeegee is used to press ink through the mesh to create the print on a surface. There are two screen printing methods we can use. Either the “lo-fi” method - in which we cut shapes out of paper to use for the stencil or alternately more complex method that uses ...

A comprehensive reference guide to a wide range of printmaking techniques.

An inspirational how-to course on Japanese woodblock printing’s history and techniques, with guidance on materials and studio practices, step-by-step demonstrations, and examples of finished works by modern masters of the medium as well as historic pieces. An increasingly popular yet age-old art form, Japanese woodblock printing (mokuhanga) is embraced for its non-toxic character, use of handmade materials, and easy integration with other printmaking techniques. In this comprehensive guide, artist and printmaker April Vollmer—one of the best known Japanese woodblock printing practitioners and instructors in the West—combines her deep knowledge of the historic printmaking practice with expert instruction and presents a collection of diverse and gorgeous prints by leading contemporary artists in the medium, as well as her own work. At once practical and inspirational, this handbook is as useful to serious printmakers and artists as it is to creative types who are drawn to Japanese history and aesthetics and are looking to experiment in other media.

This is a book for low budgets and high ambition. Read it and you will learn how to put images of things onto other things. You will start by rolling up your sleeves. Your shirt will be stained anyways. At some point, you will harness the power of the sun. Go ahead, look inside. You will see that you do not need a fancy studio to print a T-shirt or a picnic blanket. There is no specialized machine required to print anything you want in any room you want. A mural, a dartboard, a deck of cards, these are all possible. In a week or a month, you will wake up to find you know words like acetate and substrate. You will be comfortable talking about ink and shopping at military supply stores. Perhaps most important of all, you will be printing images of things onto other things.

This is a modern, stylish and practical guide to the traditional craft of bookbinding, written by the founders of the London Centre for Book Arts, a destination workshop space that attracts visitors from all over the world. Accessible enough for complete beginners, while full of inspiration for those with more experience, this is the ultimate guide to making beautiful books by hand.
