involvement and feedback from patients, the public and community practitioners.

Chapter 6: Guidelines for the Provision of Anaesthesia ...

On behalf of the Intensive Care Society (ICS) and the Faculty of Intensive Care Medicine (FICM), welcome to the second edition of Guidelines for the Provision of Intensive Care Services (GPICS). The first edition of GPICS (2015) was a landmark publication that built on the earlier Core Standards for Intensive Care Units (2013). GPICS has become the definitive reference source for the planning, commissioning and delivery of Adult Critical Care Services in the UK.

1.1. Each unit should have a designated clinical lead (see glossary) for anaesthesia services for trauma and a designated lead for anaesthesia services for orthopaedic surgery. This should be recognised in their job plan and they should be involved in multidisciplinary service planning and governance within the unit.

Chapter 16: Guidelines for the Provision of Anaesthesia ...

The physical environment can be challenging for the safe provision of anaesthesia when compared with the main theatre environment. The anaesthesia providers should develop safe practice guidelines that consider the assessment, induction, recovery and discharge of patients.
