These "rights" are more than just legal rights, but also the social liberty of making one's own decision, and the right for the general public to be properly educated on such issues. This would do much to liberate women from pervading current social stigma.

Even those who support a woman's right to an abortion often qualify their support by saying abortion is a "bad thing," an "agonizing decision," making the medical procedure so remote and radioactive that it takes it out of the world of the everyday, turning an act that is normal and necessary into something shameful and secretive. of surprises and originality. Pollitt's imagination is stirred by conflict and juxtaposition, by the contrast (but also the connection) between logic and feeling, between the real and the transcendent, between our outer and inner selves: Jane Austen slides her manuscript under her blotter, bewildered young mothers chat politely on the playground, the simple lines of a Chinese bowl in a thrift store remind the poet of the only apparent simplicities of her childhood. The title poem hilariously and ruefully depicts the friction between passion and repression ("Perhaps / my body would have

liked to make some of our dates, / to come home at four in the morning and answer my scowl / with 'None of your business!' "). In a sequence of nine poems, Pollitt turns to the Bible for inspiration, transforming some of the oldest tales of Western civilization into subversive modern parables: What if Adam and Eve couldn't wait to leave Eden? What if God needs us more than we need him? With these moving, vivid, and utterly distinctive poems, Katha Pollitt reminds us that poetry can be both profound and accessible, and reconfirms her standing in the first rank of modern American poets.

An indispensable guide to building a fighting feminist movement for reproductive freedom. With an antiabortion majority on the Supreme Court and several states attempting to outlaw abortion altogether, many activists are on the defensive, hoping to hold on to reproductive rights in a few places and cases. This spirited book shows how feminism can start winning again. Jenny Brown uncovers a century of legal abortion in the United

States until 1873, recalls women's experiences in the illegal days, and shows how the women's liberation movement of the 1960s really won abortion rights. She draws inspiration and lessons from the radicals of Redstockings, the Army of Three, and the Jane Collective, putting together a road map for today's organizers from the black feminist argument for reproductive justice, the successful fight to make the morning-after pill available over the counter, and the recent mass movement to repeal Ireland's abortion ban. Brown argues that politically conservative nonprofits have been setting the

Instead, it is time to return to the fundamental ideas that won legal abortion in the first place: Women publicly telling the full truth of their own experience, demanding repeal of all abortion restrictions, and showing how abortion and birth control are the key demands in the struggle for women's freedom.
