Reasonable Doubt had an intriguing premise. I picked up the full series to avoid the cliffhangers. Episodes 1 & 2 were short reads while episode 3 was a little longer. The characters had good chemistry, though I didn't connect with them. All in all, I was engaged throughout the series.

The complete New York Times Bestselling serial, now available in one book! My c\*ck has an appetite. A huge and very particular appetite: Blonde, curvy, and preferably not a fucking liar...(Although, that's a story for another day.) As a high profile lawyer, I don't have time to waste on relationships, so I fulfill my needs by anonymously chatting and sleeping with women I meet online. My rules are simple: One dinner. One night. No repeats. This is only casual sex. Nothing more. Nothing less. At least it was, until "Alyssa"...She was supposed to be a 27 year old lawyer, a book hoarder, and completely unattractive. She was supposed to be someone I shared law advice with late at night, someone I could trust with details of my weekly escapades. But then she came into my firm for an interview--a college-intern interview, and everything fucking changed...

I hate him... I hate that I fell in love with him, I hate that he didn't love me back, and I hate the fact that I just made a life-altering decision just so I could get the hell away from him. He'd always said that he was unchangeable, heartless, and cold... I really should've believed him...

I hate him... I hate that I fell in love with him, I hate that he didn't love me back, and I hate the fact that I just made a life-altering decision just so I could get the hell away from him. He'd always said that he was unchangeable, heartless, and cold... I really should've believed him... \*\*Final book in the Reasonable Doubt series\*\*

Best Thriller and Mystery of the Year – Washington Post Best Thriller and Mystery of the Year – San Francisco Gate From the award-winning author of Quicksand, a gripping legal thriller that follows one woman's conflicted efforts to overturn what may be a wrongful conviction. I'm giving you a chance to achieve every lawyer's dream, said Sophia Weber's old professor. Freeing an innocent man. Thirteen years ago, a fifteen-year-old girl was murdered. Doctor Stig Ahlin was sentenced to life in prison. But no one has forgotten the brutal crime. Ahlin is known as one of the most ruthless criminals. When Sophia Weber discovers critical flaws in the murder investigation, she decides to help Ahlin. But Sophia doing her utmost to get her client exonerated arouses many people's disgust. And the more she learns, the more difficult her job becomes. What kind of man is her client really? What has he done? And will she ever know the truth?

She lied to me... She betrayed the one rule that I'm most adamant about: Honesty. Complete and utter fucking honesty. I really wish she was someone else-someone who didn't have the ability to make me feel, someone I could easily discard like the hundreds of women before her. She isn't. I'm drawn to her like I've never been drawn to a woman before-completely captivated by the very sight of her. But unfortunately, with my past slowly re-surfacing for all of the world to see, I'll have to find a way to let her go. She can never be mine.

To be convicted of a crime in the United States, a person must be proven guilty “beyond a reasonable doubt.” But what is reasonable doubt? Even sophisticated legal experts find this fundamental doctrine difficult to explain. In this accessible book, James Q. Whitman digs deep into the history of the law and discovers that we have lost sight of the original purpose of “reasonable doubt.” It was not originally a legal rule at all, he shows, but a theological one. The rule as we understand it today is intended to protect the accused. But Whitman traces its history back through centuries of Christian theology and common-law history to reveal that the original concern was to protect the souls of jurors. In Christian tradition, a person who experienced doubt yet convicted an innocent defendant was guilty of a mortal sin. Jurors fearful for their own souls were reassured that they were safe, as long as their doubts were not “reasonable.” Today, the old rule of reasonable doubt survives, but it has been turned to different purposes. The result is confusion for jurors, and a serious moral challenge for our system of justice.

Two top-notch female attorneys must put aside their personal differences long enough to defend the biggest murder case of their careers. Forced to fight a common enemy, they develop a bond that sees them through the uncertainties of trial, the pain of betrayal and pressures neither could have imagined.

After almost twenty years, Emery Hazard finally has the man he loves. But things with his boyfriend and fellow detective, John-Henry Somerset, are never easy, and they’ve been more complicated lately for two reasons: Somers’s ex-wife and daughter. No matter what Hazard does, he can’t seem to get away from the most important women in his boyfriend’s life. While Hazard struggles with his new reality (changing dirty diapers, just to start), a bizarre murder offers a distraction. John Oscar Walden, the leader of a local cult, is found dead by the police, and the case falls to Hazard and Somers. The investigation takes the two detectives into the cult’s twisted relationships and the unswerving demands of power and faith. But the deeper Hazard looks into the cult, the deeper he must look into his own past, where belief and reason have already clashed once. And as Hazard struggles to protect the most vulnerable of Walden’s victims, he uncovers a deeper, more vicious plot behind Walden’s murder, and Hazard finds himself doing what he never expected: racing to save the killer. Only, that is, if Somers doesn’t need him to babysit.

Tells the story of an Illinois man, first convicted in 1983 of murdering his wife and his three children, whose outward respectability belied his sexual indiscretion and religious extremism, and the appeal that led to a second trial in the case. Reissue.
