Winner of the 2010 HKU Poetry Prize "'Then all things began twice.' The poems inPaper Scissors Stoneare moved by the forces of repetition and release, and are haunted by crossings (of borders, of people, of languages and their written characters). With wit and sorrow, precision and tact, the poems study the essential qualities of places, persons, and their arrangements, asking us what it is to begin twice. The book is a formally beautiful and complete meditation on transformation." -Saskia Hamilton "These extraordinary poems, so assured in their directions, so startling in their clarities, have an eerily dreamlike wakefulness. Fan's enigmatic lucidity is born of a confluence of traditions, both real and imagined. This is not simply a remarkable debut, but a brilliantly accomplished book." -Adam Phillips Born and educated in Hong Kong.Kit Fannow lives in the UK. The first English-language collection of a contemporary Russian master of the short story. Maxim Osipov, who lives and practices medicine in a town ninety miles outside Moscow, is one of Russia’s best contemporary writers. In the tradition of Anton Chekhov and William Carlos Williams, he draws on his experiences in medicine to write stories of great subtlety and striking insight. Osipov’s fiction presents a nuanced, collage-like portrait of life in provincial Russia—its tragedies, frustrations, and moments of humble beauty and inspiration. The twelve stories in this volume depict doctors, actors, screenwriters, teachers, entrepreneurs, local political bosses, and common criminals whose paths intersect in unpredictable yet entirely natural ways: in sickrooms, classrooms, administrative offices and on trains and in planes. Their encounters lead to disasters, major and minor epiphanies, and—on occasion—the promise of redemption.

“Cyberpunk’s first lyrical poem, mixing Kabbalah, manga, pop-culture trivia and Zen with enough style and dexterity to actually pull it off . . . [McDonald] does more in a page than most writers do in a chapter.” —Neal Stephenson Words can control you, words can make you act against your own will...and words can kill. Ethan Ring discovers computer graphics with profound effects on human minds—fracters. Dark political forces want his power, and Ethan must face the consequences of his creation, and his actions. In search of redemption, he embarks on an ancient thousand-mile pilgrimage, but can he ever escape the forces that once controlled him, and can he resist the power of the deadly images tattooed onto his hands? This ebook edition also includes the 2008 novella, The Tear.
