The title will discuss those involved, such as John F. Kennedy—who spoke about civil rights in 1963—as well as Lyndon B. Johnson, Martin Luther King Jr., and more. Vivid details, well-chosen photographs, and primary sources bring this story and this case to life. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

This volume provides a broad and detailed picture of the act’s impact on African Americans’ lives.

A collection of essays discussing the Civil Rights act

Describes conditions before the Civil Rights Act of 1964, how it helps protect people, and the ways it continues to be enforced.

The author begins with the birth of civil rights - the circumstances, acts and legacy of the 39th Congress, constitutional origins, passage and structure of the Act, moves through the Fourteenth Amendment and into restrictive interpretations and quiescent years, and finishes with a chapter on discerning the future from the past and the contemporary significance of the Act.

A 50th anniversary tribute chronicles the historical struggle to bring the Civil Rights Act into law, profiling a wide range of contributing figures in religious, public and political arenas. 60,000 first printing.

Details the development and passage of the Civil Rights Bill of 1964

Representing a culmination of the long and hard-fought battles leading up to and during the Civil Rights Movement, the Civil Rights Act of 1964 was a historic piece of legislation. The act ended segregation in public facilities and schools, prohibited unequal voter registration requirements, and proposed several other reforms. Although it was slow to take effect in many areas and was just one step of many in the continuing struggle for equality, it was a critical juncture in United States history. This volume examines the impetus for the act, its implementation, related legislation, and lasting impact through the present day. • Even on the 50th anniversary of the Civil Rights Act of 1964, debate surrounding the Voting Rights Act continues and civil rights violations abound. This volume reminds us that the lessons and sacrifices leading up to the act should never be forgotten.

Civil rights legislation figured prominently in the agenda of Congress during the Civil War and Reconstruction. But as Reconstruction came to an end and discrimination against African Americans in the South became commonplace, civil rights advocates in Congress increasingly shifted to policies desired by white constituents in the North who had grown tired of efforts to legislate equality. In this book, the first of a two-volume set, Jeffery A. Jenkins and Justin Peck explore the rise and fall of civil rights legislation in Congress from 1861 to 1918. The authors examine in detail how the Republican Party slowly withdrew its support for a meaningful civil rights agenda, as well as how Democrats and Republicans worked together to keep civil rights off the legislative agenda at various points. In doing so, Jenkins and Peck show how legal institutions can be used both to liberate and protect oppressed minorities and to assert the power of the white majority against those same minority groups.

On the fiftieth anniversary of the landmark Civil Rights Act of 1964, Raymond F. Gregory evaluates our progress towards the full implementation of one of the law ’ s key provisions: Title VII, which prohibits discrimination in the workplace. Gregory looks at key litigation as the law has come to include discrimination based on more than just race, but on gender, age, ethnicity, and sexual orientation. From the segregationist policies of the past to lingering workplace oppression in the form of sexual harassment, age discrimination, and religious conflicts, the places we work have always been the scenes of some of our greatest civil rights battles. This study of the landmark cases and rulings, and debates surrounding workplace discrimination of all kinds sheds light on the cultural tensions we grapple with in America. Gregory also looks at the broader history of oppression suffered, recognized, and overcome, in the 50 years since this country passed its Civil Rights Act. In addition to a detailed history of the legal history of civil rights and America ’ s workplace discrimination, this book also outlines positive ways forward for our society as we continue to diversify and redefine what it means to be respectful of our fellow citizens ’ most inalienable, protected, and sacred rights.
