The Knowledge-Creating Company – Extended Summary—XP123

As new explicit knowledge is shared throughout an organization, other employees begin to internalize it. They use it to broaden, extend, and reframe their own tacit knowledge. This starts the spiral of knowledge all over again, but this time at a higher level. Articulation and Inernalization are the critical steps in this spiral of knowledge.

The Knowledge-Creating Company: How Japanese Companies Create the Dynamics of Innovation by Ikujiro Nonaka and Hirotaka Takeuchi (284 pages, Oxford University Press, 1995) by Barbara Presley Noble Americans love nothing more than seeing the underdog triumph, especially when the underdog is themselves.

“The Knowledge-Creating Company” by Ikujiro Nonaka and ...

In a Japanese company, knowledge is thought to be internally generated from basic principles laid out by top management, then improved on by brainstorming from within the ranks and finally some amount of feedback from external sources. Knowledge acquired by individuals becomes “organizational knowledge” shared among colleagues.

The Knowledge-Creating Company: How Japanese Companies—

Knowledge creation refers to the continuous combination, transfer, and conversion of different kinds of knowledge. This occurs as users interact, practice and learn. Put simply; it is the creation of ideas, which is at the heart of a company’s competitive advantage. Competitive advantage is what a company has when it has the edge over its rivals. Specifcally, when it has the edge regarding the provision of a certain product or service.
