The title, The Sleepwalkers, says it all. I have never understood WHY the great powers of Europe went to war in 1914 and after reading this, it is clear that they did not know either. This book is about HOW it happened, in a huge narrative on all the contributing players, from the tubercular assassin of Archduke Ferdinand to the ineffectual ...

The Sleepwalkers: How Europe Went to War in 1914 By Christopher Clark New York: HarperCollins, 2013. Christopher Clark 's book on the origins of World War I has rightly already received much praise. His easy-to-read style makes this complex subject accessible to a broad audience.

~~Review—The Sleepwalkers: How Europe Went to War in 1914~~

The Sleepwalkers: How Europe Went to War in 1914, by Christopher Clark. Strategy, bellicosity, blunder? A.W. Purdue weighs a fresh look at the Great War 's deadly genesis. With the approach of the centenary of the outbreak of the Great War, attention focuses on how the " Proud Tower " of early 20th-century European civilisation came to an end.

2 In 2012, historian Christopher Clark published a monumental work on the origins of World War I in Europe. The catchy title The Sleepwalkers – How Europe Went to War in 1914 already suggests that Clark seeks to break with a tradition which holds an important spot within First World War research: the almost paradigmatic effort to name a culprit, to acuminate the historical narrative towards identifying sole, dreadful and unmistakable guilt.

The Sleepwalkers: How Europe Went to War in 1914 is historian Christopher Clark 's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict.

One of The New York Times Book Review 's 10 Best Books of the Year Winner of the Los Angeles Times Book Prize (History) The Sleepwalkers: How Europe Went to War in 1914 is historian Christopher Clark 's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict. Clark traces the paths to war in a minute-by-minute, action-packed narrative that cuts between the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and Belgrade, and examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. Meticulously researched and masterfully written, Christopher Clark 's The Sleepwalkers is a dramatic and authoritative chronicle of Europe 's descent into a war that tore the world apart.

On the morning of June 28, 1914, when Archduke Franz Ferdinand and his wife, Sophie Chotek, arrived at Sarajevo railway station, Europe was at peace. Thirty-seven days later, it was at war. The conflict that resulted would kill more than fifteen million people, destroy three empires, and permanently alter world history. The Sleepwalkers reveals in gripping detail how the crisis leading to World War I unfolded. Drawing on fresh sources, it traces the paths to war in a minute-by-minute, action-packed narrative that cuts among the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and Belgrade. Distinguished historian Christopher Clark examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. How did the Balkans—a peripheral region far from Europe's centers of power and wealth—come to be the center of a drama of such magnitude? How had European nations organized themselves into opposing alliances, and how did these nations manage to carry out foreign policy as a result? Clark reveals a Europe racked by chronic problems—a fractured world of instability and militancy that was, fatefully, saddled with a conspicuously ineffectual set of political leaders. These rulers, who prided themselves on their modernity and rationalism, stumbled through crisis after crisis and finally convinced themselves that war was the only answer. Meticulously researched and masterfully written, The Sleepwalkers is a magisterial account of one of the most compelling dramas of modern times.

The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In The Sleepwalkers Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings,Sunday Times 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' Washington Post 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson [Reading The Sleepwalkers], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, New York Times Book Review 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' Sunday Times Books of the Year 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' Mail Online 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' Boston Globe 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly skerching the context driving them ... A magisterial work' Wall Street Journal About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of The Politics of Conversion, Kaiser Wilhelm II and Iron Kingdom. Widely praised around the world, Iron Kingdom became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

Traces the crisis period leading up to America's entry in World War II, describing the nation's polarized interventionist and isolation factions as represented by the government, in the press and on the streets, in an account that explores the forefront roles of British-supporter President Roosevelt and isolationist Charles Lindbergh. (This book was previously featured in Forecast.)

From the bestselling author of The Sleepwalkers, a book about how the exercise of power is shaped by different concepts of time This groundbreaking book presents new perspectives on how the exercise of power is shaped by different notions of time. Acclaimed historian Christopher Clark draws on four key figures from German history—Friedrich Wilhelm of Brandenburg-Prussia, Frederick the Great, Otto von Bismarck, and Adolf Hitler—to look at history through a temporal lens and ask how historical actors and their regimes embody unique conceptions of time. Elegantly written and boldly innovative, Time and Power reveals the connection between political power and the distinct temporalities of the leaders who wield it.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. *As you read this summary, you will discover that the First World War was the culmination of a long process during which the protagonists sometimes influenced each other, sometimes betrayed each other and finally confronted each other. Far, far from the laconic descriptions in the textbooks of this Der des Ders, Christopher Clark delivers the impressive details of the relations between European leaders at the beginning of the 20th century, using notes, official correspondence and even excerpts from diaries. Nothing was inevitable, yet everyone, at some point, contributed to this tragic outcome without being aware of it. A somnambulism unfortunately responsible for millions of deaths. *You will also discover that : none of the European powers involved were able to prevent this conflict, each having chosen to prioritize their own interests at the expense of peace; the assassination of Sarajevo was the trigger for a complex crisis involving one country after another through the play of alliances; the political instability of many countries has left the field open to influential figures who have been able to pursue a warmongering policy and play a crucial role in the outbreak of hostilities; the First World War was only a larger scale replica of the consequences of the Balkanization of Central Europe. *On 28 June 1914, Archduke Franz Ferdinand, heir to the Habsburg throne, arrived at Sarajevo station for a short official visit. Less than forty days later, the First World War put an end to three empires, redistributed the cards of European geopolitics and led to more than twenty million deaths. Even more interesting than the "why" question, the question of "how did we get there?" raises questions about the mechanisms of alliances between countries, the personalities of the decision-makers of the time and the rise of nationalism. Elements that inevitably provoke comparison with the current context and show, for once, that Man is often his own executioner. *Buy now the summary of this book for the modest price of a cup of coffee!

The outbreak of the First World War was ' a drama never surpassed '. One hundred years later, the characters still seem larger than life: Archduke Franz Ferdinand, brooding heir to the Habsburg throne; the fanatical Bosnian Serb assassins who plot to murder him; Conrad and Berchtold, the Austrians who exploit the outrage; Kaiser Wilhelm and Bethmann Hollweg, backing up the Austrians; Sazonov, Russian Foreign Minister, trying to live down a reputation for cowardice; Poincaré and Paléologue, two French statesmen who urge on the Russians; and not least Winston Churchill, who, alone among Cabinet officials in London, perceives the seriousness of the situation in time to take action. July 1914 tells the story of Europe 's countdown to war through the eyes of these men, between the bloody opening act on 28 June 1914 and Britain 's final plunge on 4 August, which turned a European conflict into a world war. The outbreak of war was no accident of fate. Individual statesmen, pursuing real objectives, conjured up the conflict – in some cases by conscious intention. While some sought honourably to defuse tensions, others all but oozed with malice as they rigged the decks for war. Dramatic, inevitably tense and almost forensically observed, Sean McMeekin 's unique book retells the story of that cataclysmic month, making clear as never before who was responsible for the catastrophe. You will never think the same way again about the origins of the First World War.

'Of the "Great Powers" that dominated Europe from the eighteenth to the twentieth centuries, Prussia is the only one to have vanished ... Iron Kingdom is not just good: it is everything a history book ought to be ... The nemesis of Prussia has cast such a long shadow that German historians have tiptoed around the subject. Thus it was left to an Englishman to write what is surely the best history of Prussia in any language' Sunday Telegraph

A narrative of the First World War examines the brutal conflict that transformed the face of Europe, paved the way for the Soviet Union and Hitler, and had long lasting repercussions.

A bold new interpretation of the First World War and the birth of the American Century In the depths of the Great War, with millions dead and no end to the conflict in sight, societies around the world began to buckle. The strain of total war ravaged all economic and political assumptions, shattering old empires and redrawing maps across Europe and the Middle East. A century after the outbreak of fighting, Yale historian Adam Tooze takes an entirely new perspective on " the war to end all wars, " focusing on the closing years of the conflict and its aftermath up to the Great Depression. This tumultuous period saw hopes for lasting peace and liberal internationalism collide with violent upheavals and the ultimate rise of totalitarian regimes. And it saw the emergence of a new global order in which all the major powers—the war's winners and losers alike—saw their fates bound up with those of the United States, now the world's dominant economic force. All-embracing, powerfully argued, and deeply instructive,The Deluge is essential reading for anyone who wants to understand the roots of America's fraught relationship with the world.
