Unable to expand the city's boundaries, the burgeoning population built over every inch of square space. And when there was no more room, they began to dig down . . . Trapped in lives of poverty and crime, these subterranean dwellers existed in darkness and misery, ignored by the chroniclers of their time. It is only in the last few years that the shocking truth has begun to emerge about the sinister underground city.

This book is about the thousands of people who live in the subway, railroad, and sewage tunnels of New York City.

A teenage boy uncovers a horrific family secret. A widower seeks vengeance on the creatures that killed his wife. A drug addled writer stalks the woman of his dreams, a woman much more sinister than she appears. A federal agent races to find the cursed relic powering this city full of spooks, spirits, and serial killers. The lives of these and others will collide in the dark and dangerous streets of Adderlass. A seed of evil was planted under Adderlass, a city where monsters hide behind masks of humanity and ordinary people shuffle anesthetized and addicted by the sickly supernatural power wafting up from below. The city was built over the crystalline skull of a bloodthirsty beast. Now, the hunt is on for this lost treasure and whoever finds it first will control the fate not only of Adderlass but of the entire world. Sixteen-year-old Simon Cubbins, young and naive, may be the key to unlocking the mystery buried in this twisted labyrinth of hidden agendas. He also unknowingly harbors a secret that could destroy the Cubbins bloodline. As different characters fight for control over Simon, he will have to decide whether or not to carry on his family's legacy.

Any space that involves descending from our typical aboveground environment is a provocation to our sensory perceptions. Such hidden spaces evoke latent mythical images and confront us with the clash between nature and artifice in our built environment. This book explores the character, use and design of underground space as a space of its own. International examples of commercial premises, restaurants, sports facilities, subway stations, museums, churches, libraries, concert halls, houses and other building types form the core material. Interviews with many renowned designers including Norman Foster, Floris Alkemade (OMA) and Francine Houben (Mecanoo) convey the architects' own views on the subject. Essays reflect on the cultural aspects, planning conditions, design considerations, technical requirements and sustainability aspects of building below ground level. Chapters include: Urban Development, Architecture, Functions, Perception and Cognition, Constructions, Energy and Interior Climate.

“[A] winningly obsessive history of our relationship with underground places” (The Guardian), from sacred caves and derelict subway stations to nuclear bunkers and ancient underground cities—an exploration of the history, science, architecture, and mythology of the worlds beneath our feet NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR When Will Hunt was sixteen years old, he discovered an abandoned tunnel that ran beneath his house in Providence, Rhode Island. His first tunnel trips inspired a lifelong fascination with exploring underground worlds, from the derelict subway stations and sewers of New York City to sacred caves, catacombs, tombs, bunkers, and ancient underground cities in more than twenty countries around the world. Underground is both a personal exploration of Hunt’s obsession and a panoramic study of how we are all connected to the underground, how caves and other dark hollows have frightened and enchanted us through the ages. In a narrative spanning continents and epochs, Hunt follows a cast of subterraneaphiles who have dedicated themselves to investigating underground worlds. He tracks the origins of life with a team of NASA microbiologists a mile beneath the Black Hills, camps out for three days with urban explorers in the catacombs and sewers of Paris, descends with an Aboriginal family into a 35,000-year-old mine in the Australian outback, and glimpses a sacred sculpture molded by Paleolithic artists in the depths of a cave in the Pyrenees. Each adventure is woven with findings in mythology and anthropology, natural history and neuroscience, literature and philosophy. In elegant and graceful prose, Hunt cures us of our “surface chauvinism,” opening our eyes to the planet’s hidden dimension. He reveals how the subterranean landscape gave shape to our most basic beliefs and guided how we think about ourselves as humans. At bottom, Underground is a meditation on the allure of darkness, the power of mystery, and our eternal desire to connect with what we cannot see. Praise for Underground “A mesmerizingly fascinating tale . . . I could not stop reading this beautifully written book.”—Michael Finkel, author of *The Stranger in the Woods* “Few books have blown my mind so totally, and so often. In Will Hunt’s nimble hands, excursion becomes inversion, and the darkness turns luminous. There are echoes of Sebald, Calvino, and Herzog in his elegant and enigmatic voice, but also real warmth and humor. . . . An intrepid—but far from fearless—journey, both theoretically and terrestrially.”—Robert Moor, New York Times bestselling author of *On Trails*

In this vividly descriptive short study, Peter Ackroyd tunnels down through the geological layers of London, meeting the creatures that dwell in darkness and excavating the lore and mythology beneath the surface. There is a Bronze Age trackway below the Isle of Dogs, Anglo-Saxon graves rest under St. Pauls, and the monastery of Whitefriars lies beneath Fleet Street. To go under London is to penetrate history, and Ackroyd's book is filled with the stories unique to this underworld: the hydraulic device used to lower bodies into the catacombs in Kensal Green cemetery; the door in the plinth of the statue of Boadicea on Westminster Bridge that leads to a huge tunnel packed with cables for gas, water, and telephone; the sulphurous fumes on the Underground's Metropolitan Line. Highly imaginative and delightfully entertaining, *London Under* is Ackroyd at his best.

On the heels of her mother's death, Hope Logan reluctantly returned to her grandparents' home place in search of a journal that revealed explosive crimes and atrocities of the past that had haunted her grandma for nearly sixty-five years. Bitterness, unforgiveness, and anger consumed her as she set out to solve the mystery that surrounded her grandma's life. The dark evil secret that was contained in the journal only deepened her resentment of God. Because of her quest, she came in contact with many strong believers, especially a handsome young pastor and three senior citizens. In that small town in the foothills of the mountains of North Carolina, Hope's bitterness, unforgiveness, and anger slowly began to fade in the light of the strong faith of the young pastor and three senior citizens. She discovered the true meaning of faith and hope in Christ in the midst of adversity. Carolyn Digh Griffin, a native North Carolinian, resides in Waxhaw, North Carolina, with her husband, Hoyle. She is retired from Union County Public Schools where she was an Administrative Assistant to the Assistant Superintendent. She has two daughters and four grandchildren who also reside in the Old North State.

Fourteen-year-old Will doesn't think he has much in common with his family. Nothing, that is, except a strange passion for digging which he shares with his father. But one day, Will's dad mysteriously vanishes down a tunnel - part of London's vast, labyrinthine underground system. With his friend Chester, Will decides to investigate. But soon the boys find themselves deep in darkness, unearthing a terrifying secret which may cost them their lives... This riveting bestseller oozes the mysterious fascination of the underground and all its hideous possibilities. Creepy, tantalising and original, it's full of thrills to keep you burrowing in!
