WILLIAM PIERCE ' S The Turner Diaries is a work of fiction, specifically in the genre of war (or military) fiction. There are millions of other books of the same general nature, offering their readers doses of imaginary intrigue and imaginary violence. Many of them are, like The Turner Diaries, set in an alternate reality version of our own world.

Why the Attacks on The Turner Diaries? | National Vanguard

The Turner Diaries is a special piece of literature, it is intended for a specific audience so if you read this book and express nothing but hatred towards it then you were obviously not the target audience.

The Turner Diaries by William Luther Pierce

The Turner Diaries is a 1978 novel by William Luther Pierce (published under the pseudonym Andrew MacDonald) and a favorite on the far-right loony bin circuit. It is a fictional account of a guerrilla war waged by a white supremacist cadre organization to overthrow the United States government and set up a neo-Nazi regime.

The Turner Diaries - RationalWiki

The Turner Diaries is probably the most widely read book among far-right extremists; many have cited it as the inspiration behind their terrorist organizing and activity.

Reacting to the prohibition against gun ownership, Earl Turner joins the revolution that creates a racist/facist state

A futuristic action-adventure novel, has been an underground bestseller for more than four decades. It chronicles a future America wracked by government oppression, revolutionary violence, and guerrilla war.

A skilled tracker must take down a science experiment gone wrong in the Alaskan wilderness in this thriller from the bestselling author of Dark Visions. In an experiment to extend human life, scientists accidentally tap into the deepest recesses of the human mind and unleash a force that might well be a terrible curse. For in their desire to use a power they did not understand, they unintentionally unleash a force that will spell the end of Mankind if it cannot be destroyed. Now an infected creature is loose in the Alaskan wilderness, and the America military is forced to ask the world ' s greatest tracker, Nathaniel Hunter, to locate the beast and destroy it before it reaches a populated area. Hunter can track anything, anywhere, anytime. But he is both horrified and shocked as he begins to follow the creature ' s bloody path leading directly toward a city. For the beast is both more powerful and more merciless than any animal Hunter has tracked before. In fact, it seems to embody the most ancient and darkest heart of Man—a power that Mankind has always feared as the greatest Beast of Prey. And as Hunter closes on the beast and the final, bloody battle approaches, he frantically realizes that the scientists may have succeeded all too well in their experiment to extend human life for it may have become unkillable.... Praise for Hunter “ Huggins pacing is nonstop; his visual imagination is so compelling....Pure entertainment. ” —Publishers Weekly

This novel of anticipation describes a coup d'état led by whites in the United States. The protagonists of the book attack the United States government, but also Blacks and Jews, the latter being described as controlling the American state. The Turner Diaries, however, provides an insight into the background of the Great Revolution which is uniquely valuable for two reasons: 1) It is a fairly detailed and continuous record of a portion of the struggle during the years immediately before the culmination of the Revolution, written as it happened, on a day-to-day basis. Thus, it is free of the distortion which often afflicts hindsight. Although the diaries of other participants in that mighty conflict are extant, none which has yet been published provides as complete and detailed a record. 2) It is written from the viewpoint of a rank-and-file member of the Organization, and, although it consequently suffers from myopia occasionally, it is a totally frank document. Unlike the accounts recorded by some of the leaders of the Revolution, its author did not have one eye on his place in history as he wrote. As we read the pages which follow, we get a better understanding than from any other source, probably, of the true thoughts and feelings of the men and women whose struggle and sacrifice saved our race in its time of greatest peril and brought about the New Era.

The white power movement in America wants a revolution. It has declared all-out war against the federal government and its agents, and has carried out—with military precision—an escalating campaign of terror against the American public. Its soldiers are not lone wolves but are highly organized cadres motivated by a coherent and deeply troubling worldview of white supremacy, anticommunism, and apocalypse. In Bring the War Home, Kathleen Belew gives us the first full history of the movement that consolidated in the 1970s and 1980s around a potent sense of betrayal in the Vietnam War and made tragic headlines in the 1995 bombing of the Oklahoma City federal building. Returning to an America ripped apart by a war that, in their view, they were not allowed to win, a small but driven group of veterans, active-duty personnel, and civilian supporters concluded that waging war on their own country was justified. They unified people from a variety of militant groups, including Klansmen, neo-Nazis, skinheads, radical tax protestors, and white separatists. The white

power movement operated with discipline and clarity, undertaking assassinations, mercenary soldiering, armed robbery, counterfeiting, and weapons trafficking. Its command structure gave women a prominent place in brokering intergroup alliances and giving birth to future recruits. Belew ' s disturbing history reveals how war cannot be contained in time and space. In its wake, grievances intensify and violence becomes a logical course of action for some. Bring the War Home argues for awareness of the heightened potential for paramilitarism in a present defined by ongoing war.

Gathers apocalyptic writings from Communism, Nazism, the environmental movement, the Branch Davidians, the Order of the Solar Temple, Aum Shinri Kyo, the Montana Freemen, and Aryan hate groups

The Camp of the Saints (Le Camp des Saints) is a 1973 French novel by author and explorer Jean Raspail. The novel depicts a setting wherein Third World mass immigration to France and the West leads to the destruction of Western civilization. A new (2017) introduction by Leonard Payne provides a cultural analysis.
