Transitions: managing personal and organizational change

Like good strategic thinkers, those who accept and manage personal change well are those who are clear about what they want. They are quick to decide what they cannot change, and to put it to one side. They are also effective in taking the necessary steps towards change and taking control of those elements that they can change.

Personal)transitions)

Transition is about letting go of the past and taking up new behaviors or ways of thinking. Planned change is about physically moving office, or installing new equipment, or restructuring. Transition lags behind planned change because it is more complex and harder to achieve. Change is situational and can be planned, whereas transition is psychological and less easy to manage.
